Air Freshening Just Got **Personal**

## Our new, innovative solution that delivers more targeted, clean and efficient air freshening for small, personal spaces.

myfresh offers more discreet targeting, providing superior efficiency and cleanliness. It freshens air in small spaces exactly when and where it's needed, reducing fragrance overload, nasal fatigue, and aerosol residue. Clean floors and eliminating the need to handle dirty cans creates a better user experience.

### Innovative Technology, Automatic Performance

Featuring hands-free motion-activation, myfresh releases just the right amount of fragrance from our proprietary dry fragrance inserts emitted by our small, high-velocity freshFan technology.

**DRY FRAGRANCE TECHNOLOGY**  
Liquid-free, leaves no residue

**freshFan TECHNOLOGY**  
High-velocity fan

**HANDS-FREE, MOTION-ACTIVATED**  
No touching dirty aerosol cans

**CHARCOAL FILTERS**  
For a fresher experience

## Great for any small space!

Designed specifically for small spaces, myfresh can freshen up any small space; every bathroom stall, urinal or sink area, as well as office & desk areas. Just place myfresh within 3 feet of the user's upper body.\*

### SINK AREAS

### OFFICE & DESKS

### BATHROOM STALLS

### URINALS

### For Restroom Stalls:

2' from the floor and within 3' of the toilet.

Anywhere in the back half of the stall behind the user or more than 3' from the toilet is recommended.

\*NOTE: myfresh should **not** be placed behind the user

## Small, Powerful & Efficient

myfresh's motion sensor detects movement and triggers the small, high speed fan, which moves 5-10 times more air than typical dispensers, turning periodically for as long as the space is occupied. It's unique design creates better experiences through superior efficiency & cleanliness.
